

Quick thing to make sure it gets seen. The Readme in GitHub has important things to read so make sure you think that out.

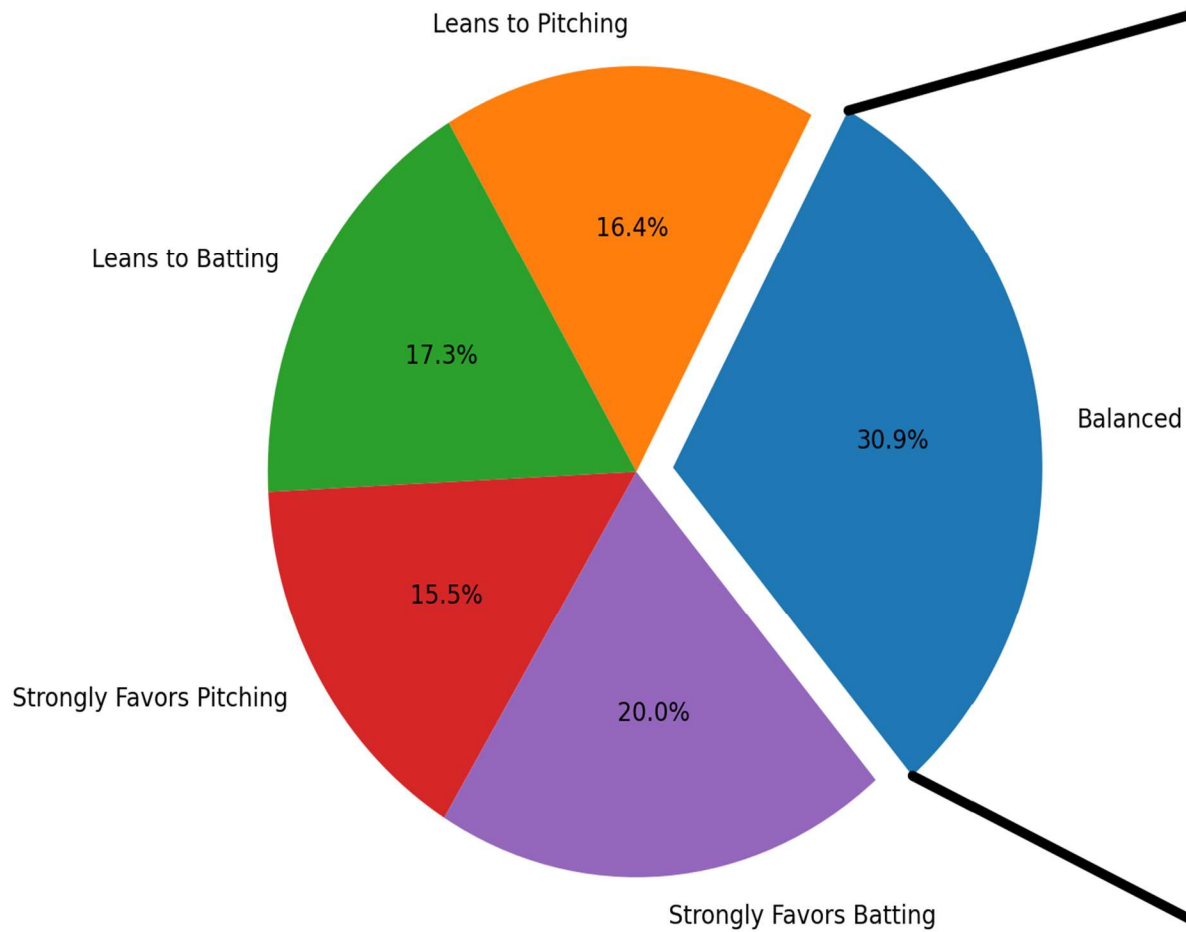

Each of these images has its own script that has the function to create it, but it is the DisplayFigures.py script that will show all three images at once.

When viewing the images constructed from the code, please view in full screen.

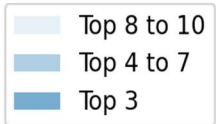

ERA vs OPS by Year and Divided by Era

World Series Winner Distribution Based on ERA and OPS Rankings

Overall Ranking of "Balanced" World Series Winners

League Game Average Hit, Homerun, Walk, and Strikeout Numbers Per Year
